Singer Solange Knowles has teamed up with drinks firm Coca-Cola to front a new campaign for clean water access in Africa.

Beyonce's little sister, along with rocker Chris Taylor and musician Twin Shadow, appear on a new 'donate to download' single, entitled Kenya, which will **raise funds for the Replenish Africa Initiative (RAIN)**.

Fans can donate as much as they can for the track and bosses at The Coca-Cola Africa Foundation are hoping to raise \$10,000 (AGBP6,700) for clean water projects in Rwanda, Uganda and Cameroon.

Knowles says, "Water is a necessity, it's not a privilege. The 'Music for RAIN' project gives everyone a chance to contribute and play a part in improving the situation."

"Kenya" will be ready to download on March 15.
